Dear Valued Customer,

At Wagoner County RWD #4 our goal is to provide reliable, high quality tap water service at very affordable rates. We are proud of the fact that the Oklahoma Rural Water Association (ORWA) has recognized that our water rates are some of the lowest in the State of Oklahoma. Furthermore, in comparison to much larger water districts such as Broken Arrow and Tulsa, the water rates of RWD#4 are in most cases cheaper than these and other large municipalities. Nevertheless, every year we are faced with the challenging task of reviewing our expenses to ensure that our water rates cover our operational costs. This year, we have determined that a small water rate increase of 4% is sufficient to cover our 2026-27 operational costs. However, even with this increase, the customers of RWD #4 still enjoy some of the lowest cost public water in the State. Please note that the new rates will become effective July 1, 2026. If you are also a wastewater customer, information about sewer rate increases can be found on the District website at www.wagonerrwd4.com.

For over 55 years, Wagoner County RWD#4 has appreciated the opportunity to serve the potable water and wastewater needs of our community, and we look forward to serving you more in the future. Thank you.

Kind regards,

Wagoner County Rural Water District #4
